

## Traffic Management Association of Australia Announces New National Board

The Traffic Management Association of Australia (TMAA), the national peak body representing the traffic management industry, is pleased to announce its newly elected National Board (formally known as the TMAA Management Committee), following its recent elections.

The Board is led by a team of four Office Bearers, responsible for overseeing the strategic direction and operations of the TMAA. These positions are filled by:

- **President & QLD Representative:** John Cassel
- **Vice President & VIC Representative:** Anthony Simmons
- **Treasurer & SA Representative:** Dylan Barker
- **Secretary & NSW Representative:** Tynan Diaz

The National Board is further bolstered by:

- **TAS Representative:** Peter Dixon
- **WA Representative:** Britt O'Dwyer
- **NT Representative:** Chris Boyer

### **John Cassel, President of TMAA, said:**

"I am honoured to be elected as President of the TMAA and look forward to working with the newly formed Board to lead the Association into a bright future. We have a dedicated and experienced team representing all corners of Australia, and I am confident that together we can continue to champion safety, excellence, and professionalism within the traffic management industry."

### **Matthew Bereni, CEO of TMAA, added:**

"The TMAA is fortunate to have such a diverse and talented group of individuals taking on leadership roles within the Association. The Board's combined expertise will be invaluable as we navigate the evolving landscape of the traffic management sector. I look forward to collaborating with the new Board to deliver on our strategic objectives and serve our members effectively."

The TMAA Board is committed to advocating for the interests of its members, promoting best practices within the industry, and fostering a strong and collaborative national voice for traffic management professionals across Australia.
