TRAFFIC MANAGEMENT
ASSOCIATION OF AUSTRALIA

TMAA - THE VOICE OF THE TRAFFIC MANAGEMENT INDUSTRY

OUR PURPOSE

The Traffic Management Association of Australia (TMAA) is the peak body for Traffic Management. The TMAA represents the Traffic Management and Traffic Control industry throughout Australia.

The TMAA represents a total cross section of industry providers from small regional businesses to national traffic management companies working across all states and all road and infrastructure projects. The continued growth of traffic management across the nation is a direct result of the growth in government and private projects currently under development and planned for the future.

Traffic management companies and traffic controllers across the country work in a range of multi-billion dollar infrastructure, recovery, relief and rebuild projects. We represent all aspects of works projects: repair, emergencies, events, utilities, building and construction and protection.

VISION

The TMAA's vision is a safe and zero harm traffic management industry across Australia.

MISSION

The TMAA's mission is to lead, unify, grow and achieve best practice within the traffic management industry on behalf of members.
